

BIOMETRIC TIME RECORDER

AXIS is the new EasyWay Biometrics' solution designed for simplifying everyday T&A operations.

AXIS offers huge advantages vs conventional T&A systems (such as mechanical or electronic time recorders, proximity card time recorders, and even some biometric devices)

Advantages

- It uses your finger as identity verification element, so you don't need paper or proximity plastic cards
- It has easy to use menus, navigation keys and instructions. You do not need special training to start using AXIS
- It's standalone, so you do not need a computer for recording punches/transactions
- Fingerprint verification takes < 1 second, so employees won't have to wait to punch in/out
- It works for small and medium businesses due to its high capacity (3,000 fingerprints and 100,000 transactions)
- It's ready to use since it comes (at no extra charge) with a T&A software for up to 300 employees, with the functions for basic management and reports generation

Features

- Biometric terminal with optical fingerprint sensor
- Fingerprint verification time: < 1 Second
- Fingerprint capacity: Up to 3,000
- Transactions capacity: Up to 100,000
- 3" Color TFT Display
- Rugged keypad (membrane type)
- TCP/IP communication
- USB port for downloading transactions to external USB Flash Drive (USB drive not included)
- English and Spanish Languages

Specifications

Identity Verification Method	Fingerprint, PIN
Display	Color, TFT, 3 inches
Communications	Ethernet, USB port for downloading transactions to external USB Flash Drive
Capacity	Up to 3,000 fingerprints/ Up to 100,000 transactions
Power Supply	5 VDC 2 AMP (power supply included)
Operating Temperature	0 – 45°C
Operating Humidity	20% - 80%
False Reject Rate (FRR)	< 0.001%
False Acceptance Rate (FAR)	< 0.00001%
Size	18.5 x 14.65 x 4.65 cm (W x H x D)
Weight	0.470 kg

About EasyWay Biometrics

EasyWay Biometrics is the new brand of innovative fingerprint solutions for Time & Attendance and Access Control needs. Every EasyWay terminal has been designed with international quality standards, combining fashionable design with outstanding performance.

EasyWay uses the latest technology to create products that provide a functional solution for customers who need low cost T&A and Access Control solutions.
